Collegiate Health Analytics (2015-2016)
Student Health Services
(.49 FTE = 19 hours/week)
Position open until filled

General Description
Student Health Services (SHS) is enhancing its efforts at assessment, evaluation and data informed decision-making. The Health Analytics Graduate Assistant will assist in the ongoing assessment of SHS services, including survey creation, data collection and analysis, report writing and supporting the work of the SHS Assessment Committee. The individual in this position will assist SHS professional staff and clinical providers in synthesizing current research on college health and translating into practice, creating assessment/evaluation systems, data analysis, report writing, and implementation assistance. Areas of focus will include, but is not limited to collegiate primary health care, prevention of alcohol, drug & violence, health promotion, and provision of services to international, underrepresented, and traditionally marginalized students.

Responsibilities include:
- Research best practices, theories, and current research to enhance strategic direction of Student Health Services on topics such as: primary health care, men's engagement in health, sexual violence prevention programs, survivor support, nutrition, sexual health, general wellness, health navigation, alcohol and drug prevention, and peer programming
- Assist with administration, marketing, analysis and report writing of National College Health Assessment (NCHA)
- Assist with the ongoing data collection (surveys, interviews, intercept interviews, focus groups, etc.), analysis, report writing and recommendation implementation of the SHS Assessment Committee, Alcohol, Drug & Violence Prevention Center, Health Promotion, and other departments/functions at SHS
- Assist SHS with Student Affairs research and data collection efforts including the CORE Project
- Engage in other educational outreach programs, research activities, program evaluation, and other duties as requested

Dates of Services & Compensation:
This graduate assistantship is being awarded for the 2015-2016 academic year beginning September 2015 – June 2016. This is a full-time graduate assistantship that requires 19 hours per week of service. This graduate assistantship requires being part of a Student Health Services in-service and additional training that will take place the week before classes begin in the Fall of 2015. Compensation includes tuition remission, health benefits and a monthly stipend.

Minimum Qualifications:
- Bachelor’s degree in Health Promotion, Public Health, Psychology, Sociology, Education, Health Sciences, or other related fields.
- Basic understanding of survey creation, data analysis/interpretation, and report writing
- Working knowledge of Excel, data analysis software (e.g. SPSS), & Qualtrics
- Accepted into an OSU graduate program in the College of Public Health & Human Sciences
- Demonstrated strong communication and organizational skills.
- Excellent oral and written communication skills.

How to Apply:
Please submit your application by going to http://studenthealth.oregonstate.edu/jobs
You will need to submit a cover letter, resume, and three references.

Position is open until filled.

OSU is committed to a culture of civility, respect, and inclusivity. As an Affirmative Action/Equal Opportunity employer, OSU values diversity in our faculty and staff regardless of their self-identity; to that end, we particularly encourage applications from members of historically underrepresented racial/ethnic groups, individuals with disabilities, veterans, women, LGBTQ community members, and others who share our vision of an inclusive community.
