

## **Attention Deficit Disorder with or without Hyperactivity Information Sheet**

The following is necessary information in order to be considered for medical treatment with stimulant medications for ADHD or ADD at Student Health Services. It will be the patient's responsibility to provide the requested information to the Medical Records Office for review by the ADHD Record Review Team (ARRT).

The ARRT will review the information to determine if the Student meets criteria to be treated with stimulant medications by a qualified medical provider at OSU Student Health Services.

If testing is needed, it will be the patient's responsibility to get testing completed. Testing is not a service provided at Student Health Services and is not covered under the health fee. Clinicians that perform testing are provided below.

IF YOU HAVE **NEVER BEEN** DIAGNOSED WITH ADHD:

- You will need have formal neurocognitive testing performed.
- Once you have been tested, please ensure that test results are provided to the Medical Records Office at Student Health Service Room 110 C.

IF YOU **HAVE BEEN DIAGNOSED** WITH ADHD AND ARE TAKING PRESCRIPTION MEDICATION NOW OR IN THE PAST YOU WILL NEED TO PROVIDE THE FOLLOWING:

- Testing from a clinical psychologist/neuropsychologist that shows a diagnosis of ADHD or ADD. Specific examples of acceptable testing are given on our Website.
- If no testing is available or cannot be obtained you will need to be re-tested.
- At least** the last *two years* of treatment records will be needed if you have been prescribed stimulant medications previously. If recently diagnosed and treated less than 2 years all treatment records will be needed.

AFTER RECEIVING ALL DOCUMENTS:

(Please note: If all information is not received within 3 months the case will be closed, but can be reopened once appropriate documentation has been provided by the patient.)

Once all documents have been provided to the Medical Records Office the following steps will occur:

- Message will be sent to you confirming that all required documents have been received.
- Cases will be reviewed by ARRT in order received. Incomplete files will not be placed in queue for review until completed. An additional message will be sent to you when your records are up for review.

- If after review your case **does not have adequate supporting documentation for treatment at OSU** the Medical Records Office will notify you of what steps may be taken to help you meet criteria, or you may choose to continue treatment with your current provider.
- If your case **meets criteria** for medical management at OSU, the Front Desk at Student Health Services will contact you to schedule an appointment to discuss medical management with an SHS provider. All final decisions for prescribing are at the discretion of the treating provider.

**It can take up to 3 months for this process to be completed. It is the responsibility of the patient to make sure they have enough medication to get through this process.**

**OFFICES THAT PERFORM TESTING FOR ADHD AND LEARNING DISABILITIES**

**(Make sure to VERIFY that your Health Insurance Covers the Testing)**
