- B. Jaya described the process of requesting a Be Well grant from Healthy Campus Initiative and completing the grant requirements with goals that fit HCI goals.
- C. Jeff Bethel's question to his class concerning purchasing insurance was not well accepted.
- D. Ask students: "If you need insurance and if it is mandatory, are you willing to purchase a plan offered by OSU, any plan meeting Affordable Care Act requirements, that meets or exceed universal coverage? What are you going to do?"
- E. Ask PSU about their change to mandatory insurance. Terra wants SHS to begin by asking students if they consider SHS costs to be competitive, do they like the services at SHS, and will they access services on campus or off campus? George reported that the International required plan costs \$361.00 per term (or opt out), and the Domestic voluntary plan costs \$960.00 per term. Gianni asked if all students could purchase the International Plan to equalize the cost for Domestic students. Terra discussed financial concerns students have about insurance costs. George said that the tax penalties for not having insurance will be pretty steep after a couple of years into the reform requirements. Ruth suggests booths and table events to provide more definitive information about intent and options to raise level of care. Jaya will ask Jeff Luck in Public Health to suggest ten good questions for SHAB's questionnaire.
- F. Hunter wants SHAB to give students more options at lower costs.

**SHAB's Conditional Recommendation to Require OSU Campus Health Insurance Coverage
in Academic Year 2014-2015
March 4, 2013**

Timeline:

End point, survey results received from SHS: May 25th, 2013 --- SHAB requests that SHS conduct a survey of students and their willingness to purchase health insurance. Ideally these are included in a survey sent to classrooms. ASOSU can also be approached. (External Survey) Research if there is any other survey that can reveal the number of uninsured students at OSU

Targeted and qualitative a 100 student survey will be sufficient SHAB will consider this an effort to educate and receive student input on health insurance receptivity at this time.

Research on the PSU model reveals that 2012-2013 insurance premium is \$1680/year including summer.

ACHA on ACA information will be considered.

March 20, 2013--- SHAB, SHS administrator meet with SHS CCO administration to talk about future increase in OHP eligibility and how to direct OSU students to these services/possibly incorporate OSU SHS as a medical home for CCO.

March 22, 2013, 10-11am--- SHAB committee meets to agree on questions relevant to final decision to recommends mandatory health insurance and designates 2 or 3 questions to be added to existing surveys.

April 1 through June 1 – SHAB meetings will include current business and consumer driven recommendations toward Health Insurance that would be ideal for student populations.

June 1-10, 2013---SHAB Final Board meeting of the year: Reviews the results of spring quarter survey. SHAB will at this time give an official recommendation to provide a mandatory health insurance plan on OSU campus.

June 24th, 2013--- START receives incoming freshman and begins their activities. A small group discussion point on health insurance on campus will be incorporated into START activities.

August 2013--- SHAB will assess information, SHAB, from ACA and student surveys, as well as information from underwriter in order to recommend Mandatory Health insurance guidelines.

Sept 2013--- OSU recruitment material can offer information about health insurance availability in 2014-2015.

Extended timeline will be adopted as needed, in order to follow ethical guidelines for surveying students for their response to health insurance on campus.
